

# EXHIBITING ORGANIZATIONS

*The purpose of the exhibit program is to further the education of scientists working in the field of immunology. The exhibits are primarily educational in character. The displays emphasize instruments, products, or services for use in teaching or research, as well as books and other publications relevant to scientific inquiry.*

## **AAAS/Science ..... 413**

1200 New York Avenue  
Washington, DC 20005  
Phone: 202-326-6917  
Fax: 202-842-1065  
Web: <http://www.aaas.org/>

The American Association for the Advancement of Science, AAAS, publishes SCIENCE and is the world's largest general scientific society. An international membership organization, AAAS works to advance science and serve society. AAAS programs in science policy, international cooperation, and science education help make the world a better place.

## **Abcam ..... 501, 503**

One Kendall Square  
Suite 341  
Cambridge, MA 02139  
Phone: 617-577-4263  
Fax: 866-739-9884  
Web: <http://www.abcam.com/>

Abcam provides cutting edge antibodies with the most comprehensive and up-to-date datasheets including customer reviews and enquiries, fast delivery, customer service and technical support. In its on-line catalog, Abcam lists more than 38,000 primary and secondary antibodies in all major research areas.

## **ABD Bioquest, Inc..... 632**

923 Thompson Place  
Sunnyvale, CA 94085  
Phone: 408-733-1055  
Fax: 408-733-1304  
Web: <http://www.abdbioquest.com/>

ABD Bioquest develops, manufactures and markets bioanalytical reagents and assay kits for life science research and drug discovery. We specialize in photometric detections including absorption, fluorescence and luminescence technologies. Our iFluor™ fluorescent labeling dyes and Cell Navigator™ live cell labeling kits provide a powerful set of tools for multiplexing cellular assays.

## **AbD Serotec ..... 210, 212**

3200 Atlantic Avenue  
Suite 125  
Raleigh, NC 27604  
Phone: 800-265-7376  
Fax: 919-878-3751  
Web: <http://www.abdserotec.com/>

AbD Serotec offers more than 10,000 performance-guaranteed antibodies and related products, plus products and services for custom antibody production and conjugation. In addition, custom monoclonal antibodies can be delivered in just 8 weeks, complete with a unique No Antibody? No Charge! Guarantee. Try our free AntibodyDetective™ service for hard-to-find antibodies!

## **Abgent, Inc..... 135**

10239 Flanders Court  
San Diego, CA 92121

Phone: 858-622-0099  
Fax: 858-622-0609  
Web: <http://www.abgent.com/>

Abgent develops primary antibodies and provides first-in-class custom peptide synthesis and antibody development. Our antibodies are widely used for autophagy, apoptosis, stem cells, protein modification, cell function, and gene regulation research. Synthesis of difficult peptides, including long peptides, is a core competency. High-quality, rapid turnaround and personal support is guaranteed.

**Academia Book Exhibits ..... 509**

P.O. Box 130  
Gainesville VA 20156-0130  
Phone: 703-753-2261  
Fax: 703-753-9650  
Web: <http://www.acadbkex.com>

Academia Book Exhibits organizes and arranges combined book and journal displays at various scientific and academic congresses.

**Accuri® Cytometers ..... 330, 332**

173 Parkland Plaza  
Ann Arbor, MI 48103  
Phone: 734-994-8000  
Fax: 734-994-8002  
Web: <http://www accuricytometers.com/>

Accuri® Cytometers introduces the automated CSampler™ as an add-on to the full-featured C6 Flow Cytometer® System. Simple, affordable and powerful the two-laser, six-detector C6 is priced at 1/3 the market leader's price. Plus intuitive CFlow® software gets you up and running within an hour.

**Active Motif ..... 336**

1914 Palomar Oaks Road  
Suite 150  
Carlsbad, CA 92008  
Phone: 760-431-1263  
Fax: 760-431-1351  
Web: <http://www.activemotif.com/>

Active Motif offers superior antibodies along with unique and innovative products to analyze nuclear function. Our high-quality reagents and assay kits provide simple, effective solutions to further research in transcriptional regulation, chromatin biology and epigenetics.

**Advalytix Products of Olympus**

**Life Sciences..... 309**

58 El Sinore Street  
Concord, MA  
Phone: 978-405-2533  
Fax: 978-405-2533  
Web: <http://www.advalytix.com/>

The Advalytix AmpliGrid single cell analysis platform is an affordable way to achieve sensitive single cell molecular analysis (rtPCR, PCR, qPCR, sequencing) with simple workflows for FACS, LCM, and micromanipulator. Key immunology and cancer biology applications include Ig sequencing, viral infectivity, host cell / pathogen interactions, and circulating tumor cells (CTC). Another revolutionary Advalytix product for immunologists using the BD FACS ARIA is our surface acoustic wave powered CellEvator sample mixer, which improves sample mixing to reduce clogging and fluctuations in event rate during long flow cytometry sorts.

**Advanced Targeting Systems, Inc. . ..... 208**

11175-A Flintkote Avenue  
San Diego, CA 92121  
Phone: 858-642-1988

Fax: 858-642-1989  
Web: <http://www.atsbio.com/>

Advanced Targeting Systems provides quality targeting reagents for the specific labeling and/or elimination of cells. The product line includes targeted toxins and antibodies. ATS also has second conjugates that are particularly useful in screening antibodies for internalization. Flow cytometry and cell-based assay services available.

**AllCells, LLC..... 218**

5858 Horton Street, Suite 360  
Emeryville, CA 94608  
Phone: 888-535-3444  
Fax: 510-450-3903  
Web: [www.allcells.com](http://www.allcells.com)

For over 10 years, AllCells has provided primary human cells for in vitro research from peripheral blood, bone marrow, cord blood, cultured cells, and diseased patient samples. Micro RNA and cDNA are also available from the majority of our products.

**ALZET® Osmotic Pumps/DURECT Corporation.....202**

2 Results Way  
Cupertino, CA 95014  
Phone: 408-367-4036  
Fax: 408-865-1406  
Web: <http://www.alzet.com/>

ALZET® Osmotic Pumps are a simple and convenient method for delivery of solutions to small lab animals. They deliver continuously from 1 - 42 days without animal handling or external connections. These implantable pumps have been used in 10,000+ studies for delivery of antibodies, cytokines, immunosuppressants, growth factors and more.

**American Association of Immunologists, Inc. .... 310**

9650 Rockville Pike  
Bethesda, MD 20814  
Phone: 301-634-7178  
Fax: 301-637-7887  
Web: <http://www.aai.org/>

Visit us to learn the many ways AAI is essential to your career. Explore the professional benefits of AAI membership and the criteria for joining. Learn about *The Journal of Immunology (The JI)*, the 2009 AAI Introductory and Advanced Courses in Immunology, mentoring programs for new investigators, and upcoming AAI meetings, including IMMUNOLOGY 2010™. Copies of AAI publications, including the AAI Newsletter and The JI will be available for review. **Trainee membership applications accepted on-site!**

**American Society for Nutrition..... 406**

9650 Rockville Pike  
Bethesda, MD 20814  
Phone: 301-634-7278  
Fax: 301-634-7892  
Web: <http://www.nutrition.org/>

The American Society for Nutrition (ASN), founded in 1928, is the preeminent professional organization for nutrition research scientists and clinicians. Publisher of *The American Journal of Clinical Nutrition* and *The Journal of Nutrition*.

**Amnis Corporation ..... 403, 405**

2505 3rd Avenue  
Suite 210  
Seattle, WA 98121  
Phone: 206-374-7165  
Fax: 206-576-6895  
Web: <http://www.amnis.com/>

Amnis Corporation offers the ImageStream system for high content analysis of suspended cells. The ImageStream system combines the information richness of microscopy with the statistical power of flow cytometry, enabling sophisticated immunologic assays in whole blood and sub-0.1% populations.

**Assay Designs, Inc. .... 222**

5777 Hines Drive  
Ann Arbor, MI 48108  
Phone: 734-668-6113  
Fax: 734-668-2793  
Web: <http://www.assaydesigns.com/>

Assay Designs™ manufactures immunoassay kits, bead-based multiplex assays, antibodies, and proteins for the worldwide biomedical, pharmaceutical, and scientific research communities, including Stressgen® brand kits and reagents for cellular stress research. Assay Designs offers custom immunoassay development as well as custom bulk production and conjugation of our commercially available reagents.

**Aushon Biosystems ..... 229**

43 Manning Road  
Billerica, MA 01821  
Phone: 877-AUSHON-1  
Fax: 978-667-3970  
Web: [www.aushon.com](http://www.aushon.com)

Aushon's advanced microarray printing technology, robust biomarker content and innovative multiplex immunoassay development and detection services provide our customers with a virtual one-stop shop for all their biomarker research. Pharmaceutical, biotechnology, academic and diagnostic organizations worldwide trust us to deliver the most reliable protein biomarker data available to accelerate their pre-clinical and clinical biomarker research. [www.aushon.com](http://www.aushon.com).

**Bay Bioscience Co., Ltd. .... 530**

533 Airport Boulevard  
Suite 400  
Burlingame, CA 94010  
Phone: 650-401-2270  
Fax: 650-373-2002  
Web: <http://baybio.co.jp>

Bay bioscience designs, develops and manufactures high performance flow cytometer cell sorting and analysis systems. The company's current product, the JSAN, combines high performance and affordability in a way previously not available. Configure a system to exactly suit your needs, including true UV excitation.

**BD (Beckton, Dickinson and Company) ..... 417**

1 Becton Drive  
MC 338  
Franklin Lakes, NY 07417  
Phone: 201-847-7409  
Fax: 201-847-4851  
Web: <http://www.bd.com/>

BD Diagnostics Preanalytical Systems is a world leader in blood collection devices including evacuated blood collection tubes for molecular diagnostic and proteomics applications: PAXgene™ Blood RNA System, BD Vacutainer® CPTTM, Mononuclear Cell Preparation Tube, and BD Vacutainer® PPTTM, Plasma Preparation Tube, and BDTM P100 and P700 proteomics tubes.

**BD Biosciences ..... 329, 331, 428, 430**

10975 Torreyana Road  
San Diego, CA 92121  
Phone: 858-812-8884  
Fax: 858-812-3739  
Web: <http://www.bdbiosciences.com/>

BD Biosciences, a segment of Becton, Dickinson and Company, is one of the world's leading businesses focused on bringing innovative tools to life science researchers and clinicians. Its product lines include: flow cytometers, cell imaging systems, monoclonal antibodies, research reagents, diagnostic assays, and tools to help grow tissue and cells.

**Beckman Coulter, Inc. .... 305, 307**

200 S. Kraemer Boulevard

Brea, CA 92822  
Phone: 714-961-4223  
Fax: 714-961-4504  
Web: <http://www.beckman.com>

Offering the broadest range of cellular analysis systems in the world, Beckman Coulter provides a variety of reagents, platforms and software to meet the diverse needs of today's research laboratories. Our extensive line of reagents include human and non-human antigens, signal transduction, bead-based multiplexing, immunotoxicology and custom design solutions.

**Bender MedSystems GmbH..... 408**

Campus Vienna Biocenter 2  
Vienna A1030  
Austria  
Phone: 43 17964040-0  
Fax: 43 17964040-400  
Web: <http://www.bendermedsystems.com/>

Bender MedSystems' product portfolio includes ELISA kits, FlowCytomix bead based multiplexing systems, antibodies and proteins targeted for research in various fields of immunology and cellular biology: adhesion, apoptosis, cytokine research and tumor biology. Our goal is to provide innovative tools to the scientific community.

**Bethyl Laboratories, Inc..... 129**

P.O. Box 850  
Montgomery, TX 77356  
Phone: 936-597-6111  
Fax: 936-597-6105  
Web: <http://www.bethyl.com/>

An original manufacturer of polyclonal antibodies to intracellular proteins, phospho-specific proteins, serum proteins, cytokines, secondaries, and more. Antibodies are tested in a wide range of applications including ELISA, Western Blot, Immunoprecipitation, Immunohistochemistry, Immunofluorescence, ChIP, and Flow Cytometry. New cytokine ELISA kits are available for a variety of species.

**BioCision, LLC..... 316**

775 E. Blithedale Avenue  
Suite 203  
Mill Valley, CA 94941  
Phone: 888-478-2221  
Fax: 415-634-2350  
Web: <http://www.biocision.com>

BioCision's CoolRacks provide consistent benchtop temperature control of laboratory samples. CoolRacks rapidly adapt to any temperature - cryogenic -150C, dry ice -70C, ice 0-4C and waterbaths 37C - and provide consistent temperature well-to-well, rack-to-rack, user-to-user. The thermoconductive modules can be autoclaved or dry heat (250C) sterilized.

**Biocompare..... 111**

395 Oyster Point Boulevard, Suite 330  
South San Francisco, CA 94080  
Phone: 650-243-5205  
Fax: 650-228-0398  
Web: <http://www.biocompare.com/>

Biocompare is the most comprehensive, in-depth, and objective website for life science product information. Thousands of scientists use Biocompare daily to quickly find the right product for their experiments rather than looking through multiple print catalogs. Visit Biocompare to find the products you need, stay informed of new technologies, read product reviews, watch product videos, and keep up-to-date on life science news.

**BioLegend, Inc..... 401, 500**

11080 Roselle Street  
San Diego, CA 92121  
Phone: 858-455-9588

Fax: 858-455-9587  
Web: <http://www.biologend.com>

More Colors: PerCP, PerCP/Cy5.5 Antibody Conjugates Now Available Worldwide. Treg: FOXP3, FR4, CD39, One-Step Staining Human Treg Flow™ Kits. Th17: IL-17A, IL-17E, RORgt. New LEGENDplex™ Assay Development & Testing Services. Cutting-Edge ELISA MAX™ Sets: Mouse IL-25, IL-23, TSLP; Human IL-17A, IL-21. Comprehensive Chemokine Receptor Ab Panel. Functional recombinant cytokines and much more.

**Bioplastics Cyclertest, Inc. .... 612**

2933 South Miami Boulevard  
Bldg 102, Suite 121  
Durham, NC 27703  
Phone: 919-806-8811  
Fax: 919-806-2014  
Web: <http://www.bpcti.com/home.asp>

BIOPlastics/CYCLERtest Inc. is uniquely positioned to assist with two key variables in PCR/qPCR, thermal cyclers and plastic vessels. Our DRIFTCON dynamic multi-channel temperature validation systems meet most accreditation requirements for thermal cycler temperature validation, and together with our Extreme Uniformity plastic disposables help provide consistent and reproducible results.

**Biotium, Inc. .... 113**

3423 Investment Boulevard  
Suite 8  
Hayward, CA 94545  
Phone: 510-265-1027  
Fax: 510-265-1352  
Web: <http://www.biotium.com/>

Biotium is a leading provider of innovative fluorescence detection technologies and products for life science research. We offer a comprehensive portfolio of more than 600 proprietary, innovative fluorescence detection products for genomics, proteomics, molecular biology, cell biology, neuroscience and drug screening.

**Cayman Chemical Company ..... 622**

1180 East Ellsworth Road  
Ann Arbor, MI 48108  
Phone: 734-971-3335  
Fax: 734-971-3420  
Web: <http://www.caymanchem.com>

Cayman Chemical manufactures an extensive line of assay kits for the measurement and detection of eicosanoids, cyclic nucleotides, cytokines, nitrate/nitrite and free radical biomarkers. Cayman also offers high purity biochemicals such as inflammatory biomarkers, nitric oxide reagents, lipids, essential fatty acids and enzymes. Antibodies for Apoptosis, COX, NOS, and LOX research are also available.

**CEDARLANE® Laboratories Limited..... 435**

4410 Paletta Court  
Burlington, ON L7L 5R2  
Canada  
Phone: 800-268-5058  
Fax: 289-288-0020  
Web: <http://www.cedarlanelabs.com/>

Cedarlane is an ISO 9001:2000 and ISO 13485:2003 registered company which specializes in providing high quality reagents to the life science community. Both a manufacturer and distributor we offer monoclonal and polyclonal antibodies, cell separation and purification kits, molecular and cell biology reagents, growth factors and cytokines, chemicals, kits, custom services, temperature-sensitive shipping supplies, and more.

**Cell Press..... 508**

30 Corporate Drive  
Burlington, MA 01803

Phone: 781-313-4751  
Fax: 617-397-2810  
Web: <http://www.cell.com>

Cell Press—publisher of *Cell*, *Immunity*, *Trends in Immunology* and other leading primary research and reviews journals—publishes articles of exceptional significance across the broad scope of life sciences. Each title is viewed as a must-read by the scientific community it serves.

**Cell Signaling Technology ..... 123**

3 Trask Lane  
Danvers, MA 01923  
Phone: 978-867-2328  
Fax: 978-867-2400  
Web: <http://www.cellsignal.com/>

Cell Signaling Technology® produces the highest quality activation-state and total protein antibodies for the study of immunology and inflammation. Our antibodies, kinases and kits are validated in house for a range of assay applications. Technical support is provided by the same scientists who produce the antibodies and know them best.

**Chondrex, Inc. .... 318**

2607 151st Place NE  
Redmond, WA 98052  
Phone: 425-702-6365  
Fax: 425-882-3094  
Web: <http://www.chondrex.com/>

Chondrex, Inc. provides reagents and consulting services for arthritis and inflammation research. Reagents consist of various species and types of collagen, anti-collagen ELISA assay kits, and monoclonal antibodies for arthritis and nephritis induction. Additional services include anti-collagen antibody testing for patients with rheumatoid arthritis and pre-clinical specimens.

**Cyntellect, Inc. .... 610**

6620 Mesa Ridge Road  
San Diego, CA 92121  
Phone: 858-875-1632  
Fax: 858-550-1774  
Web: [www.cyntellect.com](http://www.cyntellect.com)

Cyntellect provides *in situ* cell processing solutions for life science research, biopharmaceuticals and drug discovery. The LEAP™ laser manipulation-based processing technology analyzes and purifies cells with simplicity and precision. The iSCIP™ brightfield and fluorescence imager performs *in situ* counting, classification, morphology and additional cell health assays for all cell types.

**De Novo Software, Inc. .... 334**

3250 Wilshire Boulevard  
Suite 803  
Los Angeles, CA 90010  
Phone: 213-384-7000  
Fax: 310-943-1489  
Web: <http://www.denovosoftware.com/>

FCS Express is one of the leading flow cytometry data analysis software packages with many unique capabilities to streamline the analysis process. It is the tool of choice for those who wish to have powerful analysis software with sophisticated reporting capabilities.

**eBioscience, Inc. .... 313, 315, 412, 414**

10255 Science Center Drive  
San Diego, CA 92121  
Phone: 888-999-1371  
Fax: 858-642-2046  
Web: <http://www.ebioscience.com/>

eBioscience, Inc. provides innovative high quality reagents to researchers worldwide that empower the process of scientific

discovery in the areas of cellular immunity and oncology. Our extensive portfolio of leading edge cell analysis products and technologies, focused on flow cytometry and immunodetection, position our customers to be at the forefront of science.

**Enzo Life Sciences ..... 322**

6181 Cornerstone Court  
East Suite 103  
San Diego, CA 92121  
Phone: 800-900-0065  
Fax: 858-550-8825  
Web: <http://www.enzolifesciences.com>

Enzo Life Sciences, incorporating ALEXIS® Biochemicals and BIOMOL® International offers a comprehensive panel of innovative life science reagents. Antibodies, enzymes, proteins, small molecule inhibitors, product libraries, and assay kits are available for research in cancer, cell death, epigenetics, genomics, immunology, neuroscience, signal transduction, and ubiquitin & proteasomes, each enabling discovery in Life Sciences™.

**Eppendorf Biochip Systems ..... 119**

1 Cantigue Road  
Westbury, NY 11590  
Phone: 516-644-6658  
Fax: 516-334-7521  
Web: [www.eppendorf-biochip.com](http://www.eppendorf-biochip.com)

Eppendorf offers a complete and integrated system from the microarray slide to analyzed data. Products including 16 different topic-specific DualChips® for gene expression profiling, DualChip® GMO for food and feed investigation, DualChip® TF MAPK and DualChip® TF Stem Cell microarrays for transcription factor analysis. Also available are customized and semi-customized microarrays.

**Exbio..... 320**

6181 Cornerstone Court  
East Suite 103  
San Diego, CA 92121  
Phone: 800-900-0065  
Fax: 858-550-8825  
Web: <http://www.exbio.cz/>

Exbio is a leading manufacturer of high quality flow cytometry reagents and assay kits for immunology research. We offer well-characterized and specific antibodies against a wide panel of CD antigens and MHC/HLA markers, available in a full color spectrum of conjugates.

**EY Laboratories, Inc. .... 600**

107 N. Amphlett Boulevard  
San Mateo, CA 94401  
Phone: 650-342-3296  
Fax: 650-342-2648  
Web: <http://www.eylabs.com>

E Y Laboratories, Inc. offers biochemical reagents in immunological and carbohydrate research. Large collection of primary and secondary antibodies and lectin conjugate with fluorescent dyes, enzymes and colloidal gold are available. One minute assay kits and the Affinity Chromatographic pre-packed column are the additional feature.

**Fluxion Biosciences ..... 228**

384 Oyster Point Boulevard  
South San Francisco, CA 94080  
Phone: 650-241-4777  
Fax: 650-873-3665  
Web: <http://www.fluxionbio.com/>

Fluxion's microfluidic technologies provide simple high throughput live cell assays under shear flow and high content analysis. Our technologies bridge the gap between biochemical screening assays and *in vivo* studies to provide more powerful, predictive assays and higher quality lead compounds by simulation of the shear stress undergone by adherent cells.

**Full Moon BioSystems, Inc..... 433**

754 Pastoria Avenue  
Sunnyvale, CA 94085  
Phone: 408-737-1702  
Fax: 408-737-7230  
Web: <http://www.fullmoonbiosystems.com/>

Full Moon BioSystems develops and markets glass based phospho-antibody microarrays, pathway-focused microarrays, high-quality monoclonal and polyclonal antibodies, polymer-coated glass substrates for DNA and protein microarrays, and unique calibration slides for evaluating array scanners and detection systems. Services: complete protein/antibody assays, array printing, custom calibration slides and more.

**Garland Science, LLC ..... 300**

270 Madison Avenue  
New York, NY 10016  
Phone: 212-216-7849  
Fax: 212-947-3027  
Web: <http://www.garlandscience.com>

Garland Science is proud to exhibit the new editions of *The Immune System* by Peter Parham; *Janeway's Immunobiology* by Murphy et al; *Case Studies in Immunology* by Geha & Rosen; and *Case Studies in Infectious Disease* by Lydyard et al. Please visit our booth to browse these and other publications.

**GenHunter Corporation..... 213**

624 Grassmere Park  
Nashville, TN 37211  
Phone: 615-833-0665  
Fax: 615-832-9461  
Web: <http://www.genhunter.com/>

GenHunter offers a complete line of products for the AP-TAG ligand-receptor interaction system allowing non-radioactive labeling of proteins. We also offer products for RNA isolation/cleaning, differential gene expression, PCR product cloning, and Northern blots. And everyone loves our PerfectWestern containers to save antibody (and thus money) for Western blots.

**GL Biochem..... 211**

519 Zi Yue Road  
Shanghai 200241, China  
Tel: 0081-21-61263355  
Fax: 0086-21-61263300  
Web: [www.glschina.com](http://www.glschina.com)

Since our inception in 1998, GL Biochem have grown into a leading global manufacturer of peptide reagents and service provider for custom peptide and custom antibody. We have the capability to produce peptide and peptide reagents from grams up to multiple kilograms (bulk) dependent on your requirement.

**HumanZyme, Inc. .... 528**

2201 W. Campbell Park Drive  
Suite 24  
Chicago, IL 60612  
Phone: 312-738-0127  
Fax: 312-738-0136  
Web: <http://www.humanzyme.com/>

HumanZyme, Inc. provides a range of superior human protein cytokines, kinases, phosphatases and coagulation proteins that conventional production methods can not produce. HumanZyme uses its proprietary engineered human cells, expression vectors, and growth medium to ensure high-yield production of authentic recombinant human proteins with natural human post-translational modifications, such as phosphorylation and glycosylation.

**IMGENEX Corporation..... 312**

11175 Flintkote Avenue  
Suite E

San Diego, CA 92121  
Phone: 858-642-0978  
Fax: 858-642-0937  
Web: <http://www.imgenex.com/>

IMGENEX Corporation develops and commercializes novel reagents for studies of human biology and disease. IMGENEX focuses on development of tools through proteomic signaling pathways profiling innate and adaptive immunity by providing antibodies and reagents to analyze Toll-Like Receptors, CD molecules, cytokines and growth factors, cancer markers, apoptosis markers, and microbial markers for flow cytometry, ELISA, immunohistochemistry and array platforms.

**Immune Epitope Database and Analysis Resource. 404**

9420 Athena Circle  
La Jolla, CA 92037  
Phone: 858-752-6548  
Fax: 858-725-6990  
Web: <http://www.immuneepitope.org/>

The IEDB is an NIH-supported, freely available resource that provides access to published data related to antibody and T cell epitopes, as well as online tools for prediction and further analysis of immune epitopes. The IEDB has curated infectious disease and allergen epitopes, and is now adding autoimmune epitopes.

**Immunology Database and Analysis Portal..... 402**

2101 Gaither Road  
Suite 600  
Rockville, MD 20850  
Phone: 301-527-6605  
Fax: 301-527-6401  
Web: <https://www.immport.org>

ImmPort serves as a database and analysis resource for immunology research data generated by investigators funded through the DAIT division of NIAID. ImmPort is being developed by a team of scientists and developer with complementary expertise in immunology and information technology to ensure high level data integration and data analysis. Product Categories: 1) Databases, 2) Data Analysis Tools, and 3) Information Management Systems

**inGenious Targeting Laboratory, Inc. .... 205**

25 Health Sciences Drive  
Stony Brook, NY 11790  
Phone: 631-444-6805  
Fax: 631-840-1044  
Web: <http://www.genetargeting.com/>

inGenious Targeting Laboratory specializes in the creation of custom-made mouse knockout/knockin models for the study of gene function. iTL is capable of producing pure models using our proprietary C57BL/6 ES cell line. iTL also possesses mixed ES cell strains, allowing for fast and cost-effective mouse model generation, guaranteeing germline transmission.

**IntelliCyt™ Corporation..... 230**

317 Commercial Street NE  
Suite G100  
Albuquerque, NM 87102  
Phone: 505-345-9075  
Fax: 866-782-3140  
Web: [www.intellicyt.com](http://www.intellicyt.com)

IntelliCyt develops, manufactures and markets products for flow cytometry screening. Their HyperCyt® System enables standard flow cytometers to sample from 96 and 384 well microplates at rates up to 40 wells/min. HyperCyt reduces sample requirements, making it feasible to perform experiments with fewer cells and less reagents per well.

**Invitrogen Corporation ..... 234, 232**

5791 Van Allen Way  
Carlsbad, CA 92008  
Phone: 800-955-6288  
Fax: 760-603-7229  
Web: <http://www.invitrogen.com>

Invitrogen Corporation provides products and services that support academic and government research institutions and pharmaceutical and biotech companies worldwide in their efforts to improve the human condition. Invitrogen is your source for Molecular Probes, BioSource, Caltag, and Zymed cellular pathway exploration tools, including ELISAs, Luminex® assays, kinase activity assays, protein arrays, antibodies and recombinant proteins. Our products help researchers improve their understanding of the role of both extracellular proteins and intracellular proteins and their function in the disease process. Invitrogen is committed to providing the most innovative pathway solutions along with personalized customer support.

**InvivoGen..... 429, 431**

3950 Sorrento Valley Boulevard  
Suite 100  
San Diego, CA 92121  
Phone: 858-457-5873  
Fax: 858-457-5843  
Web: <http://www.invivogen.com/>

InvivoGen is the leading supplier of Innate Immunity and Toll-Like Receptor research reagents. Our product line includes genes, TLR-transfected cell lines and the largest selection of TLR ligands and antagonists available anywhere. Our TLR Ligand Screening Service allows researchers the ability to screen samples for TLR agonist or antagonist activity.

**Jackson ImmunoResearch Laboratories, Inc..... 105**

872 West Baltimore Pike  
P.O. Box 9  
West Grove, PA 19390  
Phone: 800-367-5296  
Fax: 610-896-0171  
Web: <http://www.jacksonimmuno.com/>

Specializing in affinity-purified secondary antibodies (many adsorbed against other species) conjugated with our new DyLight 488, DyLight 549, DyLight 594, and DyLight 649 fluorescent dyes and many other detection ligands. Other new products include anti-IgG, Light Chain specific for Western blotting and Bovine anti-Goat IgG for detection of goat primaries.

**The Jackson Laboratory ..... 221, 223**

610 Main Street  
Bar Harbor, ME 04609  
Phone: 207-288-6270  
Fax: 207-288-6152  
Web: <http://www.jax.org/>

The Jackson Laboratory is a world leader in mammalian genetics research. The independent nonprofit institution also distributes more than 4,000 strains of JAX® Mice, offers a full range of research services (JAX® Services), and trains scientists through professional courses and conferences. The Jackson Laboratory: *Leading the search for tomorrow's cures.*

**Journal of Visualized Experiments..... 634**

48 Grove Street  
Suite 303  
Somerville, MA 02144  
Phone: 617-901-2332  
Fax: 866-381-2236  
Web: <http://www.jove.com>

Founded in October 2006, JoVE is the first online video-publication for biological research. The JoVE editorial board consists of 20 scientists from leading academic institutions including Harvard, Princeton, and NIH. JoVE has published over 200 video-

protocols on experimental approaches in neuroscience, immunology, developmental biology, microbiology and other fields.

**JPT Peptide Technologies GmbH..... 419**

Volnerstrasse 5  
Berlin 12489  
Germany  
Phone: 49 3063927-879  
Fax: 49 3063927-888  
Web: <http://www.jpt.com/index.htm>

JPT Peptide Technologies provides innovative peptide based products and services for vaccine development, immuno monitoring and peptide biomarker discovery worldwide. JPT's proprietary core technologies Spot™ and PepStar™ for peptide arrays; PepMix™ peptide pools; and PepTrack™ peptide libraries facilitate all phases of novel vaccines development.

**Lippincott Williams & Wilkins..... 203**

4816 139th Place SE  
Snohomish, WA 98296  
Phone: 425-379-9354  
Web: <http://www.lww.com/>

Lippincott Williams & Wilkins (LWW) is a leading international publisher of professional health information for physicians, nurses, specialized clinicians and students. LWW provides essential information for healthcare professionals in print and electronic formats, including textbooks, journals, CD-ROM, and via Intranets and the Internet. Purchase direct from the publisher for best deals. Also representing McGraw-Hill, Thieme and Springer publications.

**MabtechAB, Inc. .... 228**

3814 West Street  
Suite 220  
Cincinnati, OH 45227  
Phone: 513-871-4500  
Fax: 513-871-7553  
Web: <http://www.mabtech.com>

Mabtech develops high quality ELISpot and ELISA kits and reagents for in-vitro measurements of immune responses. Recent developments include human and mouse B-cell ELISpot kits, Fluorospot kits allowing simultaneous detection of dual cytokine secretion, and kits and reagents for human and mouse IL-17. Mabtech products are for research use only.

**MBL International Corporation..... 308**

4 H Constitution Way  
Woburn, MA 01801  
Phone: 781-939-6964  
Fax: 781-939-6963  
Web: <http://www.mblintl.com>

MBL International introduces the industry's largest selection (over 1000) of G-Protein Coupled Receptor antibodies. Our products also include the fluorescent protein vectors, kinase assay ELISA kits, monoclonal antibodies, and recombinant proteins and used for life sciences research in apoptosis, signal transduction, neuroscience, cell proliferation, cytokines, cancer research, and immunology. MBL also manufactures and distributes diagnostic ELISA and IF kits in the areas of autoimmune, virology and infectious diseases from MBL Bion.

**Meso Scale Discovery..... 532**

9238 Gaither Road  
Gaithersburg, MD 20877  
Phone: 240-631-2522  
Fax: 240-632-2219  
Web: [www.mesoscale.com](http://www.mesoscale.com)

Meso Scale Discovery (MSD®) develops and markets solutions for singleplex and multiplex biological assays, including assays for toxicology biomarkers, metabolic biomarkers, cytokines, and phosphoproteins. MSD's platform is based on MULTI-ARRAY® technology, a proprietary combination of patterned arrays and electrochemiluminescence detection, enabling large numbers of measurements with exceptional sensitivity, wide dynamic range, and convenience.

**Mimotopes..... 533**

Roseville, MN 55113  
Phone: 651-603-0909  
Fax: 651-603-1459  
Web: <http://www.mimotopes.com/>

Mimotopes offers peptide libraries, microarrays, and small molecule libraries propelling screening applications in Immunology and Discovery. Key advances in epitope mapping (B/T cell), FRET peptide libraries in protease substrate development, screening arrays with unusual amino acids, and analog development. Mimotopes has a strong classical Custom Peptide and Anti-Peptide Antibody service.

**Miltenyi Biotec, Inc. .... 409, 411**

12740 Earhart Avenue  
Auburn, CA 95002  
Phone: 530-887-5311  
Fax: 530-887-5312  
Web: <http://www.miltenyibiotec.com>

Miltenyi Biotec provides MACS<sup>®</sup> Technology, the gold standard in cell separation for research and clinical scale, as well as sample preparation, cell analysis and molecular biology products and services to the biomedical research community. The company also manufactures cGMP custom reagents, antibodies, proteins, peptides, and other molecules.

**National Institutes of Allergy and**

**Infectious Diseases..... 302**

6610 Rockledge Drive  
MSC 6612  
Bethesda, MD 20892  
Phone: 866-284-4107  
Fax: 301-402-3573  
Web: <http://www3.niaid.nih.gov/>

The National Institute of Allergy and Infectious Diseases conducts and supports basic and applied research to better understand, treat, and ultimately prevent infectious, immunologic, and allergic diseases. NIAID staff will distribute printed information and answer questions on these subjects. Recruiters will be present to discuss employment opportunities at NIAID.

**Nature Publishing Group ..... 513**

75 Varick Street  
9th Floor  
New York, NY 10013  
Phone: 212-726-9636  
Fax: 212-696-9591  
Web: <http://www.nature.com/>

Nature Publishing Group brings leading scientific and medical research to your desk top. The NPG portfolio combines the continued excellence of *Nature* and its associated research and review journals, over 42 leading academic and society journals and 8 Nature Clinical Practice journals. Visit our exhibit for free sample copies.

**Nexcelom Bioscience, LLC ..... 616, 618**

360 Merrimack Street  
Lawrence, MA 01843  
Phone: 978-327-5340  
Fax: 978-327-5341  
Web: <http://www.nexcelom.com/>

Nexcelom's Cellometer line of simple-to-use cell counters automate manual cell counting procedures by obtaining accurate counts, viability, and cell sizes in less than 30 seconds & only 20uL of sample. Fluorescence detection capabilities enable fast & simple determination of GFP transfection rates, PI-viability, & direct counting of WBCs without lysing.

**Novus Biologicals, Inc. .... 608**

8100 Southpark Way, A-8  
Littleton, CO 80120  
Phone: 303-730-1950  
Fax: 303-730-1966  
Web: <http://www.novusbio.com>

Novus Biologicals' extensive catalog of antibodies, peptides, proteins and RNAi target the fields of Immunology, Cancer, Autophagy, DNA Repair, Apoptosis, Angiogenesis, Hypoxia, Neuroscience and Metabolism. Novus is the exclusive distributor of Abnova products.

**NuAire, Inc. .... 421, 423**

2100 Fernbrook Lane  
Plymouth, MN 55447  
Phone: 763-553-1270  
Fax: 763-553-0459  
Web: <http://www.nuaire.com/>

NuAire is a universal leader in providing laboratory professionals with reliable products for demanding environments: Biological Safety Cabinets, CO2 Incubators, Ultralow Temperature Freezers, Laminar Airflow Equipment, and a variety of complementary products to serve the needs of the laboratory community.

**OriGene Technologies, Inc. .... 121**

6 Taft Court  
Rockville, MD 20850  
Phone: 240-620-0234  
Fax: 301-340-8606  
Web: <http://www.origene.com/>

OriGene is a gene-centric company that provides cDNA, shRNA, antigens and antibodies for gene function research. Elevating the antibody supplier standard, OriGene rigorously tests its antibodies via Western analysis and supplies only the high performance antibodies, each with a vial of corresponding antigen as positive control.

**Pall Medical ..... 535**

2200 Northern Boulevard  
East Hills, NY 11548  
Phone: 516-801-9858  
Fax: 916-801-9548  
Web: <http://www.pall.com/>

Pall's novel Purecell Select System revolutionizes the enrichment of mononuclear cells with a new filtration based platform that is easy to use and produces consistently high cell recoveries. Pall also offers a complete line of products for cord blood collection, processing and cryopreservation.

**PBL Interferon Source ..... 201**

131 Ethel Road West  
Suite 6  
Piscataway, NJ 08854  
Phone: 732-777-9123  
Fax: 732-777-9141  
Web: <http://www.interferonsource.com/>

PBL InterferonSource, a division of Pestka Biomedical Laboratories, Inc. based in Piscataway, NJ, is the world's largest producer of interferons and related products to the life sciences research market. Founded in 1990 by Dr. Sidney Pestka, PBL aims to provide the biomedical researcher with high quality interferon products and facilitate the advancement of research.

**Pel-Freez Biologicals ..... 209**

219 N. Arkansas Street  
Rogers, AR 72756  
Phone: 479-636-4361  
Fax: 479-636-3562

Web: <http://www.pelfreeze-bio.com>

Pel-Freez has been a leading supplier of biological raw materials to scientists worldwide for more than 50 years. From whole tissues to tissue lysates, antibodies to Western blots, plasma and serum to blood proteins, we can quickly and economically provide you with the tools you need every day. Whether you need a large volume of standard product shipped overnight or a custom protocol designed to meet your project's needs, call Pel-Freez first!

**PeptoTech, Inc. .... 516**

5 Crescent Avenue  
PO Box 275  
Rocky Hill, NJ 08553  
Phone: 609-497-0253  
Fax: 609-497-0321  
Web: <http://www.peprotech.com/>

PeptoTech manufactures an extensive line of recombinant human, murine and rat recombinant proteins, animal-free recombinant proteins, monoclonal antibodies, affinity purified polyclonal antibodies, affinity purified biotinylated polyclonal antibodies, Elisa development kits and serum-free media supplements.

**Phalanx Biotech Group ..... 219**

1400 Page Mill Road  
Building B  
Palo Alto, CA 94304  
Phone: 650-320-8669  
Fax: 650-320-8488  
Web: [www.onearray.com](http://www.onearray.com)

Gene Expression whole genome, pathways, diseases, and microRNA arrays and services. Complete Service, Personal Attention, and Academic Pricing. Also sample extraction kits and services, labeling kits, friendly analysis consulting and software package, and presentation figures and posters consulting.

**ProImmune, Inc. .... 502, 504**

1901 60th Place E.  
Suite L2378  
Bradenton, FL 34203  
Phone: 888-505-7765  
Fax: 775-206-4635  
Web: <http://www.proimmune.com>

Products and services for immune monitoring and epitope discovery, including detection of antigen-specific CD4<sup>+</sup>, CD8<sup>+</sup> and NK T cells in flow cytometry; T cell epitope discovery and B cell epitope prediction and mapping; cellular analysis services, including ELISPOT, ICS and T cell proliferation assays; immunogenicity testing and development of biologics.

**PromoCell GmbH ..... 303**

Sickingerstrasse 63/65  
D-69126 Heidelberg  
Germany  
Phone: 1-866-251-2860  
Fax: 1-866-827-9219  
Web: <http://www.promocell.com/>

At PromoCell, we are committed to providing researchers worldwide with a broad range of human cells and optimized cell culture media. Furthermore, we supply well proven products for cell biology research such as user-friendly cell transfection kits, cytokines, and fluorescence labeling reagents. You can count on our high quality products backed by experienced technical support and friendly customer service.

**Quansys Biosciences..... 517**

365 North 600 West  
Logan, UT 84321  
Phone: 435-750-0959  
Fax: 435-750-6869  
Web: <http://www.quansysbio.com/>

Quansys Biosciences specializes in the development and manufacture of highly sensitive and robust multiplex ELISAs. Our Q-Plex™ technology is capable of simultaneously measuring multiple biomarkers to generate a biochemical profile. The Q-Plex™ Array is supported by our Q-View™ Imager and Software and allows researchers an easy to use multiplex ELISA platform that helps save precious sample, time and money.

**Quidel® Corporation..... 200**

10165 McKellar Court  
San Diego, CA 92121  
Phone: 858-552-1100  
Fax: 800-227-8855  
Web: <http://www.quidel.com/>

The Quidel® Corporation Specialty Products Group is focused on delivering innovative research and diagnostic tools with applications in oncology, metabolic bone (osteoporosis) and related disease states. Many of these products are unique in nature and provide researchers and clinicians valuable scientific and diagnostic information. Microwell kits, related products and core technologies are currently marketed directly and through distribution worldwide under the Quidel® and MicroVue® brands.

**RayBiotech, Inc. .... 109**

3607 Park Day Lane  
Suite 200  
Norcross, GA 30092  
Phone: 770-729-2992  
Fax: 770-206-2393  
Web: <http://www.raybiotech.com>

RayBiotech, Inc. is the pioneer and industry leader of antibody and protein array technologies which allow efficient, cost-effective detection of multiple disease-related proteins from any liquid biological sample. Our technologies hold great promise for the discovery of disease mechanisms, novel biomarkers, and drug targets.

**R&D Systems, Inc. .... 204**

614 McKinley Place NE  
Minneapolis, MN 55413  
Phone: 612-379-2956  
Fax: 612-379-6580  
Web: <http://www.rndsystems.com/>

R&D Systems serves the basic research, clinical research, and diagnostic markets with products for cell biological research. We provide purified proteins; antibodies; kits and reagents for ELISAs, multiplex assays, and assay services.

**Rockland Immunochemicals, Inc. .... 117**

P.O. Box 326  
Gilbertsville, PA 19525  
Phone: 610-369-1008  
Fax: 610-367-7825  
Web: <http://www.rockland-inc.com/>

Antibodies and antibody based tools for Westerns, ELISA, Histochemistry, Fluorescence Microscopy and FLOW. Primary antibodies include Akt pathway, Cell Cycle & Checkpoint control, Cytokines, Collagens, DNA Damage, NFkB pathway and Ubiquitin. Conjugated antibodies to DyLight the Alexa Alternative, IRDyes, Alkaline Phosphatase, FITC, Peroxidase, Phycoerythrin, Texas Red. ROCKLAND also has Custom Antibody Services.

**Rules-Based Medicine, Inc. .... 512**

3300 Duval Road  
Austin, TX 78759  
Phone: 512-835-8026  
Web: <http://www.rulesbasedmedicine.com/>

RBM is a biomarker testing laboratory delivering reproducible, quantitative, multiplexed immunoassay data. We measure several to hundreds of proteins in a small sample in multiple sample types. This provides robust biomarker patterns for drug development, consumer product and diagnostic applications. RBM is CLIA certified and supports GLP studies.

**SABiosciences Corporation..... 237**

6951 Executive Way  
Frederick, MD 21703  
Phone: 301-682-9200 x5137  
Fax: 301-682-7300  
Web: <http://www.sabiosciences.com/>

SABiosciences offers pathway-focused and genome-wide products and services for genomic, proteomic, and epigenomic expression and functional analysis including real-time PCR Arrays for mRNA, miRNA, chromatin IP, and DNA Methylation; RNA interference; and cell-based luciferase or GFP reporter assays and lentiviral reporters.

**Sanofi Pasteur, Inc. .... 602**

Discovery Drive  
Swiftwater, PA 18370  
Phone: 570-957-3473  
Fax: 800-565-5756  
Web: <http://www.sanofipasteur.com>

Sanofi Pasteur Inc., the vaccines division of Sanofi Aventis Group provides pediatric, adult, and travel vaccines for diseases such as diphtheria, tetanus, pertussis, polio, *Haemophilus influenzae* type b, influenza, rabies, Japanese encephalitis, typhoid fever, yellow fever, and meningococcal disease. To learn more about our products, visit our exhibit.

**SeraCare Life Sciences, Inc..... 216**

37 Birch Street  
Milford, MA 01757  
Phone: 508-244-6400  
Fax: 508-634-3334  
Web: <http://www.seracare.com/>

SeraCare offers a broad range of biologicals from cellular immunology products to intermediates for media and cell/tissue culture. With 25 years of expertise in serology, immunology, virology, and molecular biology, SeraCare also provides a variety of services to clinical trials, cryopreservation and management of valuable biological samples, and cellular/molecular assays.

**Shenandoah Biotechnology, Inc. .... Booth 220**

6 Belmont Lane  
Monroe, OH 45050  
Phone: 513-539-2769  
Fax: 513-539-2769  
Web: <http://www.shenandoah-bt.com>

Shenandoah Biotechnology is a company dedicated to providing molecular, immunological and recombinant protein products and services of exceptional quality and value. Our scientific core has over 60 years of combined experience in research, development and manufacturing of biomedical research reagents and services.

**SignalChem Pharmaceuticals, Inc..... 103**

570-5600 Parkwood Way  
Richmond, BC V6K 2M2  
Canada  
Phone: 604-232-4600  
Fax: 604-232-4600  
Web: <http://www.signalchem.com/>

SignalChem is focused on the research, development, and production of innovative cell signaling products including: active kinases and phosphatases, antibodies, inactive signaling proteins, and substrates. The company also offers the following discovery services: Compound Profiling against a panel of over 260 active targets and Custom Development of Proteins.

**SouthernBiotech ..... 231**

P.O. Box 26221  
Birmingham, AL 35260  
Phone: 205-945-1774  
Fax: 205-945-1704  
Web: <http://www.southernbiotech.com/>

Since 1982, SouthernBiotech has been dedicated to the production of the world's highest quality secondary antibodies for research use. Now, we offer a broad range of polyclonal and monoclonal antibodies, including, fluorochrome and enzyme conjugates, Low Endotoxin/Azide Free preparations, F(ab')<sub>2</sub> fragments, purified immunoglobulins and collagens.

**SRI International ..... 522**

333 Ravenswood Avenue  
Menlo Park, CA 94025  
Phone: 650-859-3000  
Fax: 650-859-3041  
Web: [Http://www.sri.com](http://www.sri.com)

With 60 years experience, SRI Biosciences offers comprehensive drug discovery and IND-directed preclinical development capabilities. Our Immunology & Inflammation team has the expertise to provide turnkey, customized services throughout the process, and in clinical sample analysis. Additionally, our Immunotoxicology /Immunoefficacy assays meet or exceed worldwide regulatory requirements.

**Strategic Diagnostics, Inc..... 235**

111 Penlader Drive.  
Newark, DE 19702  
Phone: 800-481-9737  
Fax: 302-456-6770  
Web: <http://www.sdix.com/>

Strategic Diagnostics offers custom monoclonal and polyclonal antibody development and production and a cancer-focused antibody catalog. Our Genomic Antibody Technology™ delivers custom antibodies after electronic submission of your protein sequence - no physical antigen required. SDI's catalog antibodies, developed with GAT, recognize native conformation and are excellent tools for biomarker assays.

**STEMCELL Technologies, Inc..... 534, 536**

570 W. 7th Avenue  
Suite 400  
Vancouver, BC V5Z1B3  
Canada  
Phone: 604-675-7706  
Fax: 604-877-0704  
Web: <http://www.stemcell.com>

STEMCELL Technologies, a privately-held biotechnology company, is a leader in specialty cell culture media, cell separation products and ancillary reagents for life science research. Driven by science, STEMCELL delivers over 900 products to more than 70 countries worldwide.

**St. Jude Children's Research Hospital..... 101**

262 Danny Thomas Place, MS 276  
Memphis, TN 38105  
Phone: 901-595-4007  
Fax: 901-595-5376  
Web: <http://www.stjude.org>

St Jude Children's Research Hospital is a non-profit biomedical research institution in where 180 basic science and clinical researchers investigate the molecular basis of both normal cellular and diseased processes. Visit our to discuss and apply for Postdoctoral Fellowship positions for PhD, MD, PharmD, and DVM students.

**Symansis..... 217**

26 Kennels Road  
Timaru  
New Zealand  
Phone: 61 293181440  
Fax: 61 93102350  
Web: <http://www.symansis.com>

Symansis provides tools to facilitate research in the life sciences, drug discovery and biopharmaceutical industries. These include a range of tag-free human cell expressed proteins, antibodies, small molecule inhibitors and assays for cell signaling. In addition, Symansis believes in the importance of building strategic alliances with key life science organizations.

**TA Instruments ..... 304**

109 Lukens Drive  
New Castle, DE 19720  
Phone: 302-427-4000  
Fax: 302-427-4001  
Web: <http://www.tainstruments.com>

More worldwide customers choose TA Instruments as their preferred thermal analysis, rheology and microcalorimetry supplier. With the addition of the TAM III and NanoITC and NanoDSC, TA Instruments is uniquely qualified to meet customer needs for high technology thermal analysis, rheology and life science microcalorimetry products, excellent training and customer support.

**Texas A&M Institute for Genomic Medicine ..... 604**

2121 W. Holcombe Boulevard  
Houston, TX 77030  
Phone: 713-677-7401  
Fax: 713-677-7790  
Web: <http://www.tigm.org/>

Texas A&M Institute for Genomic Medicine (TIGM) is an academic research institute that operates the world's largest C57BL/6 gene trap library and has access to the largest 129SvEvBrd library. TIGM distributes both embryonic stem cell clones and knockout mice and provides a wide variety of mouse research services.

**Thermo Scientific Particle Technology..... 510**

7998 Georgetown Road  
Suite 1000  
Indianapolis, IN 46268  
Phone: 317-610-3800  
Fax: 317-610-3888  
Web: <http://www.thermo.com/>

Engineers, physicists, chemists, biochemists, and other scientists use particles as reference standards for size measurements, as flow tracing devices, for molecular biology, and nucleic acid isolation applications, as reactive surfaces to transport diagnostic reagents and for a variety of other uses. Our customers depend on Thermo Scientific particles to solve real-world problems.

**TissueGnostics GmbH ..... 437**

420 N. Larchmont Boulevard  
Los Angeles, CA 90004  
Phone: 323-466-0499  
Fax: 323-466-0499  
Web: <http://www.tissuegnostics.com>

TissueGnostics provides microscope-based cell analysis systems allowing the user to automatically acquire and analyze images of tissues, cultures, and smears. It enables the user to quantitatively analyze any substance which can be marked with immunofluorescent or immunohistochemical markers. TissueGnostics offers TissueFAXS (microscope control), TissueQuest (immunofluorescence analysis) and HistoQuest (immunohistochemistry analysis).

**Tree Star, Inc..... 523**

340 A Street  
Ashland, OR 97520  
Phone: 800-366-6045  
Fax: 541-482-3153  
Web: <http://treestar.com/>

Tree Star, Inc. is located in Ashland, Oregon, and produces FlowJo, a flow cytometry data analysis software. FlowJo is the leading paradigm in flow cytometry data analysis. It is built on a special purpose database, designed around the structure of flow data and the researcher's experiments.

**UVP, LLC ..... 328**

2066 West 11th Street  
Upland, CA 91786  
Phone: 909-946-3197  
Fax: 909-946-3597  
Web: <http://www.uvp.com/>

New BioImaging Systems include iBox® System for small animal imaging and ColonyDoc-It system for automated colony counting. Systems include entry-level BioDoc-It™ gel documentation system and advanced, automated BioSpectrum® Imaging System for 1D, 2D, fluorescence, chemiluminescence, colorimetric. UVP manufactures a wide range of ultraviolet products, HEPA/UV PCR systems and hybridization ovens.

**Wiley-Blackwell..... 505**

350 Main Street  
Maiden, MA 02148  
Phone: 781-388-8465  
Fax: 781-338-8465  
Web: <http://www.wiley.com/WileyCDA/>

Wiley-Blackwell is the leading society publisher offering clinicians and libraries peer-reviewed primary research and evidence based medicine. Key journals include Allergy, Pediatric Allergy & Immunology and Clinical and Experimental Allergy. Key books include Barry Kay's Allergy and Allergic Diseases and Dean Metcalfe's Food Allergy.
